During Feb. 13th Elba City Council meeting

Pay raise announced for patrol officers

by Linda Hodge, Editor

The Elba City Council continues to search for a contractor to possibly renovate a downtown square building to house the Elba Chamber of Commerce office, but during the Monday, Feb. 13, council meeting Mayor Tom Maddox said he was still waiting on another proposal before moving forward.

Maddox said he had received one quote on renovating the proposed property [old dime store building] on Davis Street, but that quote for renovations was more than the insurance funds available from the old Chamber building that burned. He said he was still waiting on one more quote from a contractor that had looked at the building.

Hopefully, we can have something more concrete to look at by the next meeting," Maddox said.

He added that some additional options had become available to the city for the Chamber office, but he thought it would be best for now to wait and see what happens with the quotes for renovating the Davis Street building.

Upon recommendation of the mayor, council members voted to abolish the Abatement Committee. Maddox said that committee, which was established

in 2013, had not met or been active in quite some time.

He said it was originally established because the city did not have a code enforcement officer at the time, but there is a code enforcement office employed now.

The mayor provided updates on two economic development projects still being sought for the city. Using code names, he said "Project Sunbeam" is still moving forward with that company adamant in wanting to locate in Elba.

As for Project Viking, the council voted to enter an executive session to discuss a contract for that potential economic development project. Mayor Maddox indicated that he feels an announcement is on the horizon for this project, but the company wanted to wait

and make the announcement itself at the appropriate time.

In her report to council member, city clerk Sally Bane announced that hourly patrol officers with the Elba Police Department had received a \$1 per hour pay increase, and she said a company was set to come last week to inspect the levee gate on the Pea River bridge.

Also, Bane said the Putnam Street and Woodland Drive culvert repair projects were ahead of schedule. She added that water has been flowing very well again through the Putnam Street culvert.

City officials met recently with the architect on plans

TWO-VEHICLE WRECK CLAIMS ONE LIFE...Emergency responders were dispatched Tuesday, Feb. 14, to the scene of this two-vehicle wreck on Alabama Highway 87, near the 49-mile marker [approximately 16 miles north of Elba in Coffee County]. The head-on collision occurred at approximately 4:25 p.m., according to authorities. As emergency responders arrived on scene they determined both drivers of the vehicles had sustained critical injuries, and two air ambulances were requested for patient transport. Two days after the wreck, Dennis Edward Murphy, age 70, of Opp, died from injuries sustained in the accident. He was driving the 2021 Volkswagen Atlas that collided head-on with a 2020 Ford F-150, driven by Jeremy Clayton Powell, age 44, of Brundidge, Ala. According to Alabama State Troopers, neither Murphy nor Powell were wearing seat belts at the time of the accident. Powell remains hospitalized receiving treatment for his injuries. The accident was investigated by the Alabama Law Enforcement Agency's Highway Patrol Division.

2nd Annual Rumble on the River

Professional wrestling event returns to Elba High School

by Linda Hodge, Editor

Live action wrestling will return to Elba High School Friday, March 3, with professional TNA Impact Wrestling delivering the entertainment.

The 2nd Annual Rumble on the River wrestling event will be Friday, March 3, at 7:30 p.m., in the Elba High School gymnasium.

"These are all contract wrestlers through the WWE," event organizer Al Gilmore said. "This is basically a minor league farm system for professional wrestlers. They are all 'under contract' wrestlers working their way up to 'prime time' or returning from an injury."

He said one of the main stars for Elba's "Rumble on the River" upcoming wrestling event will be TNA Impact Wrestling/WWE superstar Johnny Swinger. Other "big" names coming to this year's event include WWE/TNA superstar DOINK the Clown, and Lucha Libre Superstar Antonio Garza.

"Last year's event was phenomenal, but this year is going to be even bigger and better," Gilmore said. "These guys mentioned are just a few of the awesome wrestlers set to come to Elba High School this year."

Gilmore said these TNA Impact Wrestling events are 100 percent family-friendly,

legit wrestling events.

Elba City Clerk Sally Bane and her family were among the many attendees for last year's event. The Bane family sat ringside for Rumble on the River, and she said her entire family loved the event.

"It was the best night of the year by far," Bane said.

"I've already requested our ringside seats again for this year's event."

Bane said the wrestling event was highly entertaining, and she loved how interactive the wrestlers were with the fans, especially all the youngsters in attendance. She said it had to be one of the best events that has ever come to Elba.

"My family and friends were very impressed with this group of entertainers also because they spoke of their Christianity throughout the event," Bane said. "It was uplifting to say the least. I highly recommend that all come out and enjoy the fun this year."

Tickets for the 2nd Annual Rumble on the River are on sale now online at GoFan.co - just search Elba High School events. Ringside tickets are \$20 each [there is a limited number available for ringside], and general admission tickets are \$10 each.

There will be concessions available during the event also, including hamburgers, hot dogs, nachos, popcorn, candy, and Pepsi products.

Some tickets will be available for purchase the night of the event, Gilmore said; however, he said it is possible the ringside tickets could sell out prior to the event date since those are first come, first serve. Doors should open around 6:30 p.m. at the Elba High School gym on March 3rd, and wrestling begins at 7:30 p.m.

All proceeds from this event will benefit the Elba High School football program. For more information, contact Al Gilmore at (334) 744-5555 or call Elba High School.

Coffee County Sheriff's Deputies speak about Project Lifesaver

If a person, with Alzheimer's disease, autism, Down Syndrome, traumatic brain injuries or cognitive impairments should wander away from a caregiver, the Coffee County Sheriff's Office (CCSO) can track them through a program called Project Lifesaver.

Project Lifesaver was started in 1999, by Virginia resident Gene Saunders. Project Lifesaver has used radio tracking and locating technology to save the lives of more than 5,000 people who wandered away and became lost.

Project Lifesaver is funded in Coffee County by the Luncheon Pilot Club of Enterprise, and club members work with Coffee County Sheriff Scott Byrd and his deputies to make sure people who wander away in Coffee County can be found quickly and efficiently.

The CCSO is provided wrist or ankle bracelets equipped with a small transmitter that emits a signal that law enforcement officials can track when someone goes missing. The bracelets, batteries for the bracelets and necessary tracking equipment are funded by the Luncheon Pilot Club of Enterprise to make sure no one in the county who has

Shown in photo from left, LPCE President Brandy Woodham, Coffee County Reserve Deputies Calvin Bookout and Tom Iten.

a brain-related disease can wander off and not be found.

This is a free service for any caregiver of a person who has the listed diseases. When Project Lifesaver gets a request from a caregiver, the caregiver will be given a box and a bracelet.

Calvin Bookout, a Reserve Deputy with the CCSO, who administers this program, changes the wrist bands and the batteries in each bracelet monthly and keeps a log on each client. Bookout currently has 14 clients, and a 15th is to be added this week.

If a client wearing the bracelet wanders away and gets lost, Bookout has the

capability of tracking that person. It is all about finding a person missing as soon as possible, as that sometimes means the difference between life and death.

Statistics on Alzheimer patients indicate 60 percent of people with the disorder wander and become lost, 75 percent are repeat wanderers and 46 persons may die if not found within 24-hours. Using the advanced special rescue techniques, Project Lifesaver has been instrumental in increasing efficiency of public safety agencies by reducing costs, saving valuable man-hours, and providing preventive help for persons in need.

With Ferrin Cox

"Books give a soul to the universe, wings to the mind, flight to the imagination, and life to everything" – Plato

Former President Jimmy Carter, age 98, is in Hospice care at his home in Plains, Georgia following several medical issues that have hospitalized him in recent months. He reportedly said he wanted to be at home for his final days. Carter only served one term as president and disappointed many voters – well he disappointed enough Americans that he was not re-elected. Our parents were disappointed when we didn't vote for Carter the first time around and again disappointed the second time around because we DID vote for Jimmy Carter. (They thought he didn't do enough for the farmers). However, he utilized his position as a former president of the United States to really leave a mark on society. He and his wife have inspired millions to work on medical, housing and other public needs, and he remains a strong advocate for 'peace' all over the world, marking him as one of, if not 'THE' best former president, at least in modern times.

Our sitting president recently made a secret, surprise visit to war torn Ukraine. Politicians often make trips to these stressed-out areas 'to boost the confidence of the local residents', etc. It usually does that but at what cost? Wartime visits take soldiers from the war effort to protect the VIP. Following floods, tornados, and other disasters it delays relief workers in their desperately needed work, and increases security issues as well. It is hard to really know if these visits are worth the cost in such stressful times.

Th talk about the next Presidential election is virtually about Republican candidates, with little mention of any Democrat candidate (if any) except President Biden. Of course that is probably because of former president Donald Trump and his announced plans of vying for another term and/or the potential Republicans who may, or may not, challenge him for the nomination. Probably the most interesting part right now is listening for the new nicknames Donald Trump puts on any person mentioned as a potential opponent in the presidential race. All that stuff prompts news reporting and keeps his name before the voters. It is also amusing to one day read editorial opinions about "Nobody can beat Trump" and the next day read an opinion from someone else opining that "Trump can't win". We have no insight that will clear up that set of diverse opinions and are sure we will be tired of the outrageous claims and counterclaims that will be heard between now and election day. It is going to be a l-o-o-o-n-g campaign.

We commented last week about the problems associated with gun control laws. During the weekend we read that the U. S. Supreme court has struck down many antigun laws already on the books, some as long as forty/sixty years! Now some state laws that ban certain guns, domestic abusers from owning guns, removing serial numbers from guns, felons from owning guns, etc., are unconstitutional!

Be safe, wear your mask when appropriate, social distance, wash your hands AND get the shot(s) and/or boosters (the newest one)!

Cuzin Lou Lou's Tales from Yonder

Editor's Note: Cuzin Lou Lou's tales are to be enjoyed as a light-hearted form of Southern expression

It is not secret that Sister is a wee 'geographically challenged' but the extent of that challenge still manages to amaze Cuzin Lou Lou from time-to-time. A conversation the two had one day last week confirmed that once again!

Sister was explaining a situation to Lou Lou, and she noted that a person was spending time in either Cincinnati or Connecticut. Sister couldn't remember which was the correct place.

Knowing Sister's tendencies to get cities and states confused, Lou Lou tried to cut Sister off mid-conversation to clarify the difference between the two...

Sister, however, never slowed down in telling her story, and she followed up with, "Actually, I'm not sure if it's Cincinnati or Connecticut, but it is one of those 'C' states."

Yep...there it was. Solid proof as to why Lou Lou encourages Sister to never engage in geographic conversations without Lou Lou being nearby to check her data first!

Lou Lou stopped Sister at that point, and said, "You do realize that Cincinnati is a city in Ohio while Connecticut is a state... right?"

Sister responded, "Oh! Well...it's Connecticut then!"

She never missed a beat! What in the name of Yonder happened to Sister when it came to geography.

Lou Lou is convinced Sister was painting her nails or something during this class in school because she definitely did not absorb the materials being taught by

the teachers.

The "C" state comment would not have been quite so bad, but this is not the first time Sister has gotten her cities and states mixed up.

Several years ago, she was trying to tell a friend about a pending trip the Yonder gang was potentially going to make.

Her explanation went something like – "We are going to either Milwaukee or Wisconsin one, but I can't remember which."

Unfortunately, Lou Lou was not around when Sister made that statement, and she only heard about it after the fact. Good news was, it was a dear friend that Sister was talking with so she did not embarrass Sister badly over the mistake.

When Sister told Lou Lou about the mishap later that evening, Lou Lou said, "Please tell me you are joking! You do know that Milwaukee is a city in the state of Wisconsin, right?"

Sister just looked at her and replied, "I do now!"

That was the day when Lou Lou told Sister she was no longer allowed to have conversations regarding geography with other if Lou Lou was not there to stop her from saying such things...unfortunately, it did not stop Sister from continuing to give Lou Lou plenty to laugh about when the two are alone.

As Lou Lou was laughing and shaking her head over Sister's most recent geography blunder – the "C" states, she decided that while Sister is extremely smart and talented in many ways, her elevator stops a few floors short from the top when it comes to geography. And, Sister had no choice but agree!

We won't even get into the time Sister wondered how in the world an Alaskan cruise could depart from Washington...yeah, the state of Washington never even crossed her mind. Instead, she was thinking of Washington, D.C.

It's never dull when Sister is around...that is for certain!

Until next time...God Bless and Keep Smiling!

How Do I Choose the Right Cemetery?

As you plan for the burial of a deceased loved one, you'll need to address a few basic questions - and the first of those questions is where? Often, individuals purchase cemetery plots well before they die. In other cases, they may leave behind a will or other document stipulating where they wish their final resting place to be. Occasionally, though, it will be up to surviving family members to select a suitable cemetery.

If your loved one was a military veteran, you may wish to look into VA cemeteries near you. Also consider that most cemeteries have veteran sections, which should provide you with plenty of options for personalization. If your loved one adhered to a particular religion, it may be worth investigating cemeteries associated with that faith tradition. Otherwise, you'll probably just want to find a public cemetery. A good starting place is to ask your funeral director for a recommendation.

If your loved one is to be cremated, it's important to find a cemetery that offers either a columbarium or an urn garden, or at least one that permits urns to be buried in traditional plots. (Most do, but it doesn't hurt to verify.) In researching local cemeteries, make sure you ask about the cost as well as any maintenance fees associated with the plot. Also ask what the cemetery will do to maintain the gravesite, and what your responsibilities will be as the family member. Finally, ask if there are any restrictions or stipulations on the kinds of casket that are permitted.

Again, as you navigate this important decision, don't hesitate to seek counsel from your funeral director, who will be able to help you locate the cemetery that best aligns with your needs and your loved one's final wishes.

CHURCH & LIFESTYLES

PASTOR'S CORNER

by Dwight Johnson, Pastor
Elba First Assembly of God

Calendars. Years ago, I had them on my wall at home and my desk at church. Then, a little later, I started carrying one in my pocket. Now, all days and events to remember are on my phone. It's very handy, and easy to reference. But, at times I wonder: Is my calendar serving me, or am I serving it?

Calendars get full in a hurry. Places to go. Things to do. My personal concern, though, is: Does filling my calendar with the important crowd out the essential? Am I neglecting things I must do because of too many things that I think I should do? When that happens, we are truly serving our calendar. It is telling us what to do. It's time for some evaluation.

The most important thing we must do, even though it might not actually be on our calendar, is to spend time with God and his Word, the Bible. Even Jesus himself would often separate himself from his disciples, go to a private place, and spend time in prayer. If Jesus needed this regular time of spiritual recharging, how much more do we? We can't, in a spiritual sense, be like the person who thinks they can drive "just a little farther" with their low fuel light on. Living spiritually empty is far more foolish and dangerous. We absolutely must prioritize time with God, and stay spiritually full. As we do this, part of our spiritual time management should include time of saying nothing to God, and listening intently to him. We know how it is when someone does all the talking and none of the listening. Let's not be that person - especially to God. Talk to him, but listen also.

It is also essential that we spend time with our family. Children grow up and move out. The elderly pass on. As someone who has family on another continent, let me strongly urge you to find a way to spend quality time with your family. As I said earlier: Other things may be important, but this is essential! Your family is a gift from God! If there has been hurt, work as much as possible toward restoration. Believe God for relational healing.

Your church is essential, and making time for it is critical to your spiritual health. Yes, churches are imperfect. Yes, they have issues. But, they are designed by God to be places of healing and restoration. So, they will all have imperfect people. In fact every person in every church is imperfect. That's why we all need the healing that comes from our regular attendance, participation, and support. In Hebrews 10:25, the writer urged "...let us not neglect our meeting together, as some people do, but encourage one another..."

Check your calendar. Evaluate your calendar. What time are you giving God, your family, and your church?

Basin Baptist Church held a Mardi Gras themed winter social event last Saturday evening, Feb. 18, and Jearl and Bertie Boland were crowned the "King and Queen" for the event. The couple reigned over the evening's activities after receiving the crowns. Basin Baptist Church is located on Hwy 189 S in the Basin Community of Coffee County. All are welcome to come worship at the church - Sunday School is at 9:30 a.m. with Worship Service at 10:30 a.m. each Sunday, and Wednesday Night Bible Study starts at approximately 6:40 p.m. each week following choir practice.

A Look at Three Famous Baseball Players

Five-Tool Players

When looking for a future superstar, most baseball scouts seek players that excel in five facets of the game. Those five are hitting for average, hitting for power, base running, throwing, and fielding. Such "five-tool players" are rare, however. In the history of the game, only a handful merit that designation. Willie Mays was one. A lifetime .302 hitter, he had 660 career home runs and collected 3,283 hits along the way. Mays was also a great base runner, stealing 338 bases. "Hammerin' Hank Aaron slugged 755 home runs, drove in 2,297 runs and stole 240 bases while posting a career .305 batting average during his career. Ken Griffey Jr. was named to his league's all-star team 13 times and won seven silver sluggers awards. Other players fall into the five-tool category, but the

Views From

The Pressbox

By Ricky Mularz, Sports Editor

Our youngest grandson Cannon got a walker last week to help celebrate turning six months old and is already scooting around the house and learning how to put it in reverse when he hits a dead-end. I have already promised our oldest grandson Lawson he can have my pick-up truck when he turns fifteen. So, since Cannon is now driving himself I guess I may have to find him a set of not so big wheels.

For what is worth....

*** The Elba Lady Tigers continued their banner season last week and advanced to the south region tournament with a lopsided win over Georgiana. The Lady Tigers got off to a slow start in the win and had their fans a little worried at the half, but broke it open in the third quarter with their tenacious defense and coasted to the win. While their opening round south region contest will have already been played by the time you read this week's column, I am predicting they won the game and moved on to the region finals. This bunch of girls may be young and inexperienced in big game settings, but they play hard and I will be surprised if they don't head up to Birmingham next week to play for a state title.

*** The high school baseball and softball seasons began last week and it was a busy week for all involved. Here at Elba, the Tigers lost both their varsity and junior varsity openers on the road in Samson, while the Lady Tiger junior varsity competed in near freezing temperatures on Friday night and then played three games on Saturday in Ozark, and posted one win after dropping their first three games in walk-off fashion. Now that the seasons have started, the players, coaches and fans will be checking the weather on a daily basis to see what to wear as they head outside.

*** The baseball and softball teams in the area were also busy with tournaments and regular season openers. On the baseball diamond, New Brockton and Kinston both dropped their openers against quality opponents, while in junior varsity action New Brockton posted a couple of wins and Zion Chapel opened with a pair of losses. I look for all the teams in the county to field very talented teams, and will be shocked of all four area teams don't advance to post-season play. As for the girls, all the softball action was involving junior varsity teams last week and all the teams got in a lot of games. Brantley won three straight games at a round-robin tourney and appears to be as good as ever, while Kinston won four games and placed second at a 10-team tournament at Ozark, and while New Brockton lost four games at the Ozark event, the Lady Gamecocks played hard and will be just fine as they get in more practice and game action. It is true that none of the varsity teams have played yet, but after one week of JV action it looks like a fun season ahead for the girls.

*** In closing.... The Major League Baseball season is just around the corner and as of now the Atlanta Braves will be nowhere to be found on cable television. The Braves made a switch to Bally Sports last season with promises of riches, but the new network is now in bankruptcy court and it isn't looking good for their fans like me that enjoy watching games on a nightly basis. I have a feeling that the games will be televised, on a pay network, and that means I will have to find something else to watch, or maybe find a new hobby. I have known for years that one day all sports will be on pay only channels, and I guess that time is nearer than I thought. Maybe one day the news networks will be pay only, nah, no one would watch.

In sub-region action

Lady Tigers pound Panthers 55-30

The Elba Lady Tigers continued their post-season surge last Monday night with an exciting 55-30 sub-region win over the Georgiana Lady Panthers, at the Elba High gym.

Elba came out ready to play and behind the scoring of Yada Caldwell and A'lyric Whitfield jumped out to an early 6-0 lead, and the Lady Tigers never backed down on either end of the court as they carried a big 12-2 lead into the second quarter. Elba remained in command early in the stanza and owned a 19-9 lead with 4:06 left in the half after a Whitfield basket. However, the Lady Panthers staged a rally in the closing minutes and when the teams went in at intermission the Lady Tigers lead had been cut to 23-18.

A'lyric Whitfield and Tajah Purvis both drained three-pointers early in the

third quarter to push Elba's lead to 29-18, and after a basket by Georgiana with 4:03 left in the stanza, the aggressive Lady Tiger defense completely shut down the Lady Panthers, and led by Yada Caldwell and Purvis closed the quarter on a 15-0 run to carry a 44-21 advantage into the fourth quarter. The pace slowed offensively in the final stanza as both teams paraded to the foul line, but the Lady Tigers never lost command and punched their ticket to the regional tournament with the solid 55-30 win.

A'lyric Whitfield scored 26 points to lead Elba, while also scoring for the Lady Tigers were Tajah Purvis 9, Yada Caldwell 8, Ayrika Caldwell 4, Brooke Tinsley 2, Ana Caldwell 2, Ny'Asia McCollough 2 and Kendra Juarez 2. Lilli Bogan led Georgiana with 13 points.

Lady Tiger JV post one win in Ozark softball tournament

The Elba Lady Tigers opened their softball season last weekend at a junior varsity tournament in Ozark and posted one win in five games in the 10-team event.

The Lady Tigers opened tournament action Friday night with a 9-8 loss to Cottonwood. Elba owned an 8-1 lead in the second inning, but couldn't hold and lost the opener on a walk off hit. Mary Brooklyn O'Neal had 1 hit, scored 1 run and had 2 rbi's to lead the Lady Tigers, while Jadyn Caldwell added 1 hit, scored 1 run and had 1 rbi; Zaniyah Mitchell added 1 hit and scored 1 run; and, Taylor Day scored 2 runs.
